**AUDITOR'S STATEMENT**

I hereby certify that I have examined the accounts of the Treasurer and find them correct and the balance in his hands to agree with the report submitted. I have approved vouchers for all bills paid and find them to agree with the Treasurer's warrants.

FREDERICK S. WITHAM,

Auditor.

---

Ipswich, Mass., Jan. 13, 1934.

Essex, ss.

Then personally appeared Frederick S. Witham Auditor of the Town of Ipswich, and made oath that the above statement by him is true.

EDWARD S. COGSWELL,

Justice of the Peace.

**AUDITOR'S REPORT**

To the Citizens of Ipswich:

I submit herewith the annual reports of the various trust funds of the Town of Ipswich as complied by their respective treasurers. I have found receipts for all bills paid, have examined the securities comprising these funds and find them to agree with the reports submitted.

FREDERICK S. WITHAM,

Auditor.

---

Ipswich, Mass., January 13, 1934.

Essex, ss.

Then personally appeared Frederick S. Witham, Auditor of the Town of Ipswich, and made oath that the above statement by him signed is true.

Before me,

EDWARD S. COGSWELL,

Justice of the Peace.

## SELECTMEN'S REPORT

---

To the Citizens of Ipswich :

In the period just before the annual town meeting in 1933 predictions were freely made that there would be an increase in the tax rate of from \$5.00 to \$8.00. In making our report to you, we are pleased to be able to say that instead of an increase there was an actual reduction of \$1.10 and this result was brought about in spite of an actual reduction in the valuation of taxable property. This excellent record was made possible by the fact that your public officials cooperated in every way to keep within the appropriations made, although in most cases there had been a material reduction in those appropriations.

We believe that 1933 was the hardest year that any Board of Selectmen of Ipswich has ever faced. With banks failing, banks closed, business stagnant and labor unemployed, it has been no mean problem to ride out the storm and make port safely. We extend our thanks to the entire crew who gave aid and advice to make this result possible, and we feel that we would be remiss in our duty if we did not extend special thanks to the Town Counsel, George A. Schofield, whose long experience in town and state government has fitted him to give counsel and advice whenever necessary.

The voters will remember that at one of the special meetings the question of an appropriation for spreading tar on the roads met with opposition. We were unanimous in our opinion that it was false economy to neglect the work for a year and pay three times the amount the next year. We were pleased to have the voters agree with us, and we again recommend a fair and liberal appropriation for this work for 1934.

Those who keep in touch with current events know full well that an active, well led police department is absolutely necessary if the crime wave is to be checked. We feel that we have a good police department and an efficient leader in that department but we know that an insufficient appropriation hampers the work. Our beach problem is constantly growing and demands action, in justice not only to the residents in that vicinity but to the hundreds of other decent people who desire to use the beach. Late in the summer last year, a special appropriation was made for beach protection and conditions were greatly improved.

Some comment has been made because the police department purchased a motor cycle, using for part payment a balance of the appropriation which the Chief had saved. The Board was divided on the question of the purchase, a majority, Wallace and Claxton, voting in favor and Damon against. Having in mind that Ipswich has many long country roads and also having in mind that the department was without a workable motor car, the majority felt that people living in outlying districts were entitled to police service, that the purchase of the motor cycle was justified and that the Chief should be commended for making it possible to purchase it.

There always has been and probably always will be differences of opinion on town boards on questions of appointments and on questions like the one quoted above. Such differences will do no injustice if each side respects the honest opinion of the other and if in commenting on the matter outside the meetings no unjust or unfair statements are made.

The expenditure of the \$8,000 appropriation for unemployment work, to be expended by our Board, is fully accounted for elsewhere in this report and the detailed statement made at a recent town meeting by our Chairman fully covers the record and cost of the work.

In closing, we again say that 1933 has been a hard and trying year on all those who have had to do with pub-

lic affairs. Our Board has had its full part to do and we point with pride to this fact, that the net result of all of the work has been that over \$42,000 has been received from the Federal government and that hundreds of men have been given work. In bringing about that result a number of people have participated, but we feel it only fair to say that, owing to his position as Chairman of our Board, and also as a member of the Unemployment Committee, the lion's share of the work has fallen on the shoulders of Mr. Wallace and he has been active and efficient, both night and day, laboring to the end that Ipswich workers should receive their full share of the Federal funds.

Respectfully submitted,

BRAINARD C. WALLACE,

JOSEPH F. CLAXTON, JR.

## BOARD OF SELECTMEN - MINORITY REPORT

---

To the Citizens of Ipswich :

Feeling that I could not sign the annual Selectmen's report in whole, as presented to me by the Chairman, and in fairness to the citizens of Ipswich and myself, I wish to submit the following:

Through the cooperation of all the officials of the Town Government and benefiting from certain sums of money from various sources, the most of which have not been available in previous years, to the general funds of the Town, among these being amounts received from the Commonwealth of Massachusetts, Income Massachusetts School Fund, Federal Emergency Relief Funds, Stadium Fund contributed by the Teachers and Town Employees, accrued interest on the Jones Fund, an additional amount over and above the usual sum received from the Feoffees of the Grammar School, monies transferred from the Water & Light Department, together with certain other smaller amounts, it is pleasing to note a reduction in the tax rate of one dollar and ten cents per thousand.

I have always favored road work and especially that of a permanent nature, for which I recommend an appropriation for 1934.

With reference to the difference of opinion between myself and my fellow Board members regarding the purchase of the motorcycle by the Police Department, I feel I would be doing the voters and myself an injustice if I did not state my position. I quote a portion of my letter to the taxpayers as it appeared in the Ipswich Chronicle, issue of September 29, 1933 :

"I yield to no one in the desire to see an able, efficient and well equipped Police Department and

if that Department really felt that a motorcycle was necessary I would not hesitate to recommend an appropriation for that purpose. My objection was not to its purchase, but to the use of funds taken from a special appropriation to pay for the motorcycle.

This special appropriation was made for the express purpose of policing and maintaining order at the beaches and in using such a fund for the purchase of a motorcycle I felt it to be a betrayal of trust, not only to those voters who put me in office, but also to those taxpayers who were promised and have been looking for an economical administration.

We all heard at Town Meeting the description of conditions at the beach, that it was essential that the beach should be patrolled and order maintained, and that the least possible amount required was \$396. On this assertion the taxpayers who on all sides had rallied in the interests of economy and were desirous of reducing expenses, granted the appropriation. This money was voted for one special purpose. If it were not needed for that purpose it is my belief that it should have been turned back to the taxpayers. If the Police felt that they needed a motorcycle it should have been paid for out of the regular appropriation for that Department and if that was insufficient, then they should have tried to get along without it until the necessary funds were available."

It was the Town's good fortune during the past few months to receive many thousands of dollars from the Federal Government with which to re-employ men. This money was allotted and disbursed according to the plans of President Roosevelt who in a public statement said no local individual was to receive personal credit out of the relief of human needs. I therefore take this opportunity to commend the Civil Works Administrator, the Federal Re-employment Agent and Unemployment Committee, the Board of Selectmen, and all others who participated in carrying out this program.

I wish to express my sincere appreciation for the co-operation of all those who have in any way during the past year assisted me in the performance of my duty as a member of the Board of Selectmen.

Respectfully submitted,

EDWIN H. DAMON.

## REPORT OF TOWN CLERK

Town Clerk's Office, Feb. 1, 1934.

To the Honorable Board of Selectmen:

I herewith present to your Honorable Board the report of the Town Clerk for the year 1933.

## DEATHS

During the year 1933 the deaths numbered 82.

Males 41

Females 41

The following persons were, at the time of death, over eighty years of age:

	Years	Months	Days..
Jan. 7—Caroline E. (Nourse) Pickard	93	7	27
Feb. 10—Edward F. Smith	86	10	2
April 15—Marianna C. Whittier	86	4	22
April 17—Bethia D. Kinsman	92	2	3
April 26—Alfred A. Howard	80	4	10
April 28—Angie P. Brown	85	8	1
May 1—Nancy P. Joy	80	.....	.....
June 9—John W. Mansfield	82	.....	.....
Nov. 12—Samuel Lombard	89	.....	.....
Nov. 30—Sarah F. Lord	82	10	26
Dec. 13—Hugh Morgan	81	.....	.....
Dec. 21—Michael Young	82	.....	.....

I wish to call attention to the following vital statistics.

It is important that these records shall be correct. If any errors are discovered, the Clerk will deem it a

favor to have them reported at once, so that correction may be made.

Some of the many reasons why births should be recorded:

To prove legitimacy.

To establish identity.

To prove notionalilty.

To show when a child has the right to enter school.

To show when a child has the right to seek employment under the Child Labor Law.

To show when a child has the right to apply for a license to operate a motor vehicle.

To establish the right to inheritance to property.

To establish liability to military duty as well as exemption therefrom.

To establish the right to hold public office.

To qualify to hold title to, and to buy and sell real estate.

To prove the age at which the marriage contract may be entered into.

To make possible statistical studies of health conditions.

As required by Chapter 46, Section 15, General Laws of Massachusetts notice is hereby given that the Town Clerk will furnish blanks for returns of births to parents, householders, physicians and registered hospitals' officers applying therefor.

The following licenses were granted through this office:

Amusement	1
Auctioneer License	1
Motor Vehicle Agent No. 1	1

Motor Vehicle Agent No. 2	1
Druggist	2
Innholders	8
Junk Dealers	3
Lodging House	2
Slaughtering	1
Common Victuallers	33
Billard and Pool	2
Bottling	1
Bowling Alleys	2
Temporary Licenses Wines and Malt Beverages (3.2)	22
Wines and Malt Beverages Light Wine (3.2) Beer	19
Alcoholic Licenses and Wines and Malt Beverages	14
Dogs	296
Hunting Licenses	169
Fishing	26
Sporting	28
Citizen Trapping	4
Minor Trapping	7
No Resident Hunting	1
Duplicate	4
Lobster	8
Crab	3

For the benefit of the owners and keepers of dogs the following extract of the General Laws is hereby submitted:

#### General Laws, Chapter 140

SECTION 137. The owner or keeper of a dog which is three months old or over shall annually, on or before March thirty-first, cause it to be registered, numbered, described and licensed for one year from the first day of April following.

The owner or keeper of a licensed dog shall cause it to wear around its neck a collar distinctly marked with its OWNER'S NAME and its REGISTERED NUMBER.

SECTION 138. The owner or keeper of a dog may at any time have it licensed until the first day of April following, and a person who becomes the owner or keeper of a dog after April first, which is not duly licensed, and the owner or keeper of a dog which becomes three months old after March thirty-first in any year, shall, when it is three months old, cause it to be registered, numbered, described, licensed and collared as required by the preceding section.

(Example under Section 138 above.) If a dog is born on June 1, 1932, he becomes three months old on September 1, 1932 and should be licensed on that date for the period Sept. 1, 1932 to April 1, 1933 when it becomes necessary to relicense him for the year April 1, 1933 to April 1, 1934.

Respectfully submitted,

EDWARD S. COGSWELL,

Town Clerk.

## REPORT OF POLICE DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

I have the honor to submit to you the report of the duties performed by the Police Department of Ipswich for the year ending December 31, 1933.

Number of telephoned complaints	604
Number of calls in from outside Police	263
Number of calls to outside Police	132
Number of out-of-town calls in	344
Total calls from March 17, 1933 to December 31, 1933	4935

## Inventory of Police Department:

Police badges	12
Clubs	7
Flashlights	7
Automobiles	1
Motor Cycles	1
Handcuffs	6
Pistols	5
Riot gun	1
Gas club	1
Gas gun	1
Drag iron sets	1

In summarizing the Police Report, may I say that ten of the total arrests made were by the State Police.

The sum of over twenty-one hundred complaints investigated by the Police, in most cases were of a mild form, meaning very little to the public at large, but being most essential to the parties making them and the Police Department. Complaints of boys between the ages of ten and fifteen years headed the list, with automobilists ranking second. Cars parked on the out-skirts of the town near farm and dwelling houses were responsible for a lot of late-hour complaints.

The Police Department being limited to three men (that is, two night and one day patrolmen, and as the streets in the central part of the town are so congested with automobile traffic) makes it almost impossible at times to answer complaints, especially between the hours of 4 P. M. and midnight. Central Street, Market Street and Depot Square alone on any ordinary night requires the attention of two officers, and Saturday night requires the attention of three.

The cruising car has proved most effective in the districts where it has patrolled, but under present conditions, with only two officers on the street at night, it is impossible to patrol the out-lying districts, which in turn, should be given the same consideration as the central patrol. People living on the out-skirts are all taxpayers

and should be protected. It should also be arranged so that a patrolman would be on duty all night. As it is now the town is without a patrolman from 5 A. M. to 8 A. M.

The motor cycle proved to be a real asset, especially to the residents of the out-lying districts. Its patrol has assisted in demolishing such disgusting situations as the stealing of vegetables, poultry, etc., besides regulating traffic and cutting down a lot of speeding. If it prevented one fatal accident, it has paid for itself a hundred times over.

The crime wave which is sweeping the country is becoming very acute and seems to be drawing nearer home all the time. The town must provide adequate Police protection for its citizens and merchants, otherwise the State is very apt to step in and if that particular thing happens it will be hard to estimate the cost, but we all know that it will be much more than it is at present.

The Police appropriation is very low compared with some of our surrounding towns, and as a matter of figures one town in particular with a population of about 8000 and with an area in square miles of 4.2, appropriated last year \$32,000.00 for their Police. Another town with a population of 7100 spent in 1933 for their Police Department \$20,400.00. They have nine regular patrolmen in their department.

The Police Department have figures available from several other towns about the size of ours which we would be very glad to present upon request.

In view of these facts and figures we have presented, the Police Department recommends that an additional sum of money be appropriated to cover the expense of two more regular officers.

Respectfully submitted,

WILLIAM E. GARRETT,

Chief of Police.

## REPORT OF CEMETERY COMMISSIONERS

To the Citizens of Ipswich :

During the past year there has been considerable work done in and about Highland Cemetery where with the co-operation of the Unemployment Committee, notable improvement has been made.

The loam has been removed to the depth of eighteen inches from all the avenues and replaced by clean gravel.

The dump at the back of the cemetery filled with sticks, stones, and general debris from the digging of graves has been removed, and that part of the grounds now presents a more sightly appearance.

The Annex, better known as the Greek Burial Ground, has also received attention and is now in excellent condition. Through the co-operation of the Water Commissioners, water has been introduced and one faucet installed here.

In the old North Cemetery the decaying dead wood has been removed and the trees trimmed, which has added not a little to the tidy appearance of the place.

About seventy lots have been staked out in the New Highland Cemetery and grass seed sown upon them. There has already been an income approaching \$900 from the sale of these lots. Eighteen graves have been opened here and as many bodies laid to rest.

General improvement may also be noted in the condition of Locust Grove.

The Commissioners are asking this year for a somewhat larger appropriation than last year, for the following reasons: The acreage of the grounds has been considerably increased, entailing more work to keep them

presentable. Some of the fences are falling down and need to be replaced. The toolhouses require shingling and the broken head stones and tombs in the Old North Cemetery should be repaired. In many places the grass needs reseeding.

Acknowledgment is hereby made to all persons who by acts or suggestions have assisted the Commissioners in their work during the past year, or who have contributed in anywise towards the improvement of the town's burial grounds

Respectfully submitted,

RALPH K. WHITTIER,

HOWARD BLAKE,

BENJ. W. HOMANS,

Cemetery Commissioners.

**ASSESSORS' REPORT**

In making this, the annual report of the Board of Assessors, there has been included the work sheet that is used in computing the tax rate, and tables of aggregates covering the work of this Department.

Our total valuation this year was somewhat smaller both on Real and Personal property, and our appropriations materially greater, but with increased revenue we were able to make a reduction of \$1.10 per thousand over our last year's rate.

Respectfully submitted,

C. CHESTER CALDWELL,

JOHN E. NORMAN,

WORTHINGTON H. MANSFIELD,

Assessors of Ipswich.

## REPORT OF MOTH SUPERINTENDENT

To the Board of Selectmen :

I herewith submit my annual report as Superintendent of the Moth Department:

The work in this department during the past year has been along the usual routine lines. The insect conditions in Ipswich are what might be called generally good. However, all of the pests are still abundant and the fight should still go on. During the work this winter, there appears to be an increase in both the gypsy and brown tail moths. Fortunately, the past summer both the elm leaf beetle and tent caterpillar were not more than normally abundant.

Considerable extra work is being done in this department as C.W.A. projects, and as this work is outside of the routine, considerable benefit should result. Five men and a foreman have been working in the woodlands creosting gypsy moth egg clusters since the early part of December. This project is under the direction of the State Dept. of Conservation. Six men and a foreman have been engaged in cutting brown tail moth webs for the past six weeks and have collected thousands. This project is under the direction of the U. S. Dept. of Agriculture. Both of these projects have been under the direct supervision of the local Moth Superintendent.

Respectfully submitted,

FRANCIS C. WADE,

Local Supt.

## REPORT OF TREE WARDEN

To the Citizens of Ipswich :

I herewith submit my annual report as Tree Warden :

During the past season there was no work undertaken which might be considered of a new type. The usual work of removing dead or diseased limbs, such as might interfere with overhead wires or buildings, etc., was carried out. Four large trees were entirely removed which had died or were nearly so, this constituting a menace to the public. Unfortunately this work must be continued as each year some of the old trees succumb to present day conditions.

An extremely large amount of work has and is being done by this department on the rural roads. This work is in the nature of brush cutting, removing low and dead limbs and a general clean up. These projects were started last winter with men available from the Unemployment Committee and are now being carried on as C.W.A. projects.

The Dutch Elm Disease: Particular attention should be given by the public to the menace of this disease to our elm trees. It is reported by authorities that the very existence of the American elm is threatened by this disease and this should cause serious apprehension. I would advise that all persons who are interested in trees procure literature and all other possible information concerning it.

I desire to express my appreciation to the Municipal Light Dept., to the Board of Public Welfare and the Unemployment Committee for the co-operation extended me in my work.

Respectfully submitted,

FRANCIS C. WADE,

Tree Warden.

## REPORT OF PARK COMMISSIONERS

To the Citizens of Ipswich :

The Board of Park Commissioners herewith submit their annual report:

South and North Green: The work on these plots the past year have been largely of the usual routine nature. Tulips have again been planted in the beds on both Commons. Some new work was started in the nature of regrading on the Ball diamond on the South Common and it is hoped to finish this as a C.W.A. project.

Giles Firmin Garden: The pond which was partially completed in 1932 was finished last summer with labor furnished by the Unemployment Committee. This now provides a safe place for the younger children to skate as well as a beauty spot in the summer. Here also one of the lawns was regraded and will be seeded this Spring.

Arthur W. Dow Park: With the aid of men from the Welfare Board and the Unemployment Committee this property has been given a thorough cleaning up. All dead and useless trees and shrubs have been cut, new roads laid out and the entire plot been made more accessible. It is now possible to drive by auto over 1.4 miles of roads and to enjoy the superb views from the different elevations.

During the present winter, the Park Commissioners have supervised a C.W.A. project on Town Hill. This project consisted of cutting fire lanes, thinning out the trees and shrub-growths and in a general way making this valuable piece of property more usable.

Respectfully submitted,

FRANCIS C. WADE,  
ERNEST H. PICKARD,  
S. C. GORDON,  
Park Commissioners.

**REPORT OF FOREST WARDEN**

Board of Selectmen,

Gentlemen:

The following is the report of the Forest Warden for the year ending December 31, 1933:

Number of woods, grass, and brush fires	14
Paid men for fighting fires	\$320.50
Paid for supplies and repairs	57.54
Paid for printing	5.00
<hr/>	
Total expenditures	\$383.04
Appropriation for year	\$423.00
Balance	\$39.96

This year I recommend the sum of \$250.00 be appropriated for:

Supplies and repairs	\$100.00
Fighting fires	\$150.00

On the eighth of May, we had a woods fire on the Palmer estate which burnt over three hundred acres of wood and brush land and which cost \$267.00 to extinguish. The damage amounted to \$500.00.

I wish to take this opportunity to thank the Topsfield and Rowley Fire Departments and all other persons who aided us in extinguishing this fire.

Respectfully submitted,

GEORGE W. BROWN,

Forest Warden.

## REPORT OF THE SUPERINTENDENT OF STREETS

To the Honorable Board of Selectmen:

Gentlemen:

I submit herewith the annual report and inventory of the Highway Department for the year 1933.

Because of a greater snow removal expense this year than estimated, it has been necessary to curtail a good deal on the general maintenance of the highway work.

With the six thousand dollar (\$6,000) appropriation for oiling streets and the fifteen hundred dollar (\$1,500) aid received from the State on the Topsfield and Linebrook Roads, a very serious condition was relieved by oiling and tarring some of the main streets. It eliminated a great number of the pot holes in the oiled roads and gave a much better riding surface. I sincerely hope a separate appropriation will be made this year for oiling streets because it is very much needed.

The following table gives the mileage and amount of hours the trucks have worked on the department, also the amount of gasoline and oil used:

	Miles	Hours	Gallons Gasoline	Quarts Oil
Chevrolet	9307	2345	1249	46
Ford Dump	8592	2380	1182	54

### Inventory

1 pair blankets, street	\$ 10.00
1 cart, two horse	50.00
1 cart, watering	50.00
1 crawler, tread and Sargent plow	1,000.00
3 drags, road	50.00

1	drag, stone	5.00	
1	forge and anvil	35.00	
	fences, snow	600.00	
1	grader, Weir	400.00	
1	kettle, tar	35.00	
1	loader, gravel	300.00	
4	machines, road	350.00	
1	mixer, cement	200.00	
2	plows, road	50.00	
4	plows, blade, snow	900.00	
1	plow, V-shaped, snow	375.00	
1	plow, tractor, sidewalk	375.00	
7	plows, sidewalk, snow	100.00	
2	plows and wheels, Fords, on snow	300.00	
1	roller, stone, 2-horse	25.00	
1	roller, gasoline, and scarifier	5,000.00	
1	sled, two-horse	25.00	
1	sweeper, two-horse	250.00	
10	screens, gravel	55.00	
1	shovel scoop, tractor	45.00	
3	trucks, dump	1,700.00	
1	truck, pickup, Ford	100.00	
2	tractors, Fordson	700.00	
1	wagon, oil	150.00	
	All other tools and supplies	2,000.00	
	Total	<hr/>	\$15,235.00

Respectfully submitted,

FRANCIS E. WOOD,

Supt. of Streets.

## BOARD OF PUBLIC WELFARE REPORT

To the Citizens of Ipswich:

It is once more a privilege to bring to you a report of your Board.

Eight years ago all the business of the Board could be transacted in one meeting a month with an expenditure of about \$7,000.00 for the year.

In 1928 the Ipswich Mills, which was the mainstay of many of the families in the town, closed its business leaving hundreds out of work. That year an appropriation larger than any in the history of the town was appropriated in the amount of \$14,649.33. Conditions remained practically the same for in 1930 we expended a similar amount, \$14,547.29.

In 1929 and 1930 the stock markets began to fluctuate and the country felt the effects of this through the summer outlet for work. On farms and estates no one was hiring any more help than was actually necessary, and here in Ipswich this part of the angle took shape.

From the stock market difficulty, came the depression of 1931, and the continuing further depression of 1932. In 1932 the town expended on welfare and unemployment, through the welfare channel only, \$45,187.88, and in 1933 \$65,140.42. All of this meant more work for the Board, it having to devote two nights a week with nearly all night sessions, and a great deal of day work for all the members besides the overtime work on telephones. Our expenditure for 1933 would have been much larger except for the activity of C.W.A. work.

## SUMMARY OF NET COST

## Expenditures — 1933

Cash	\$61,320.19
Unpaid bills	3,820.23
	<hr/>
	\$65,140.42
Reimbursements other cities and towns, and F. E. R. A.	20,908.04
	<hr/>
	\$44,232.38
Outstanding bills against other cities and towns, approximately	7,597.03
	<hr/>
Net cost	\$36,635.35

The work at the Town Infirmary was carried on during the past year under the uniformly efficient management of Mr. and Mrs. George A. Dorr. The place is in excellent condition and the net cost is reasonably low.

Signed: WALTER F. POOLE,

Chairman Board of Public Welfare.

## REPORT OF TRUSTEES OF MEMORIAL HALL

A detailed statement of the payments made for the year 1933 for Memorial Hall will be found elsewhere in this report. We give a brief summary of both receipts and expenditures as follows:

### Receipts

Appropriation for 1933 bills	\$2,000.00
Appropriation for unpaid bills of 1932	103.88
	<hr/>
	\$2,103.88
Rent from American Legion Post	480.00
Rent from American Legion Auxiliary	160.00
Rent from W. R. C.	70.00
	<hr/>
Total	\$2,813.88

### Expended

Bills paid for 1932 and 1931	\$2,073.60
Less amount received for rent	710.00
	<hr/>
	\$1,363.60
Less unexpended balance	30.28
	<hr/>
Net expense for year 1933	\$1,333.32

We desire to say that in addition to the \$480.00 paid by the American Legion Post in the above table, that another payment of \$480.00 was made by the Post in January of 1934, too late to be entered in the 1933 account.

We again take pleasure in pointing out that we feel that we are fortunate in having as janitor, George E. Matheson. He has been active in doing many repair jobs which has saved considerable expense, and he has won

the thanks and appreciation of the members of the various organizations who use the building.

In our last report, we called attention to the fact that the building needed painting both inside and outside. This would have cost a considerable sum of money, but the Chairman of our Commission, Brainard C. Wallace, worked hard to secure an allotment from the Federal C.W.A. funds, and the work has been completed at very little expense to the town.

During the year we have had a complete going over of the heating plant, with the result that it is giving better results with less expense than ever before.

Respectfully submitted,

BRAINARD C. WALLACE,

RALPH C. WHIPPLE,

JAMES M. MCGINNIS,

WALTER E. HAYWARD,

OSCAR H. EWING,

GEORGE A. SCHOFIELD,

Trustees.

Ipswich, Mass., February 14, 1934.

## REPORT OF TRUST FUND COMMISSIONERS

To the Citizens of Ipswich:

We submit the following report of the funds which are under our supervision as Trust Fund Commissioners.

### Eunice Caldwell Cowles Fund

Amount of fund January 1, 1933	\$10,336.39
Interest received to January 1, 1934	364.89
	<hr/>
	\$10,701.28
Cash paid for scholarships	600.00
	<hr/>
Total fund January 1, 1934	\$10,101.28

### Securities Comprising Fund

Deposit in Salem Savings Bank	\$ 5,000.00
Deposit in Inst. for Savings, Newburyport	5,101.28
	<hr/>
	\$10,101.28

### Marianna T. Jones Fund

Amount of fund January 1, 1933	\$31,678.30
Interest received to January 1, 1934	834.61
Accrued interest to January 1, 1934	733.34
	<hr/>
	\$33,246.25
Appropriated by Town at 1933 Town meeting	4,794.70
	<hr/>
Total	\$28,451.55

### Securities Comprising Fund

Town of Ipswich Notes	\$20,000.00
Deposit in Ipswich Savings Bank	7,718.21
Accrued interest due	733.34
	<hr/>
Total	\$28,451.55

**Martha I. Savary Fund**

Amount of fund January 1, 1933	\$250.00
Interest received to January 1, 1934	5.21
	<hr/>
Total fund	\$255.21

During the year 1933 the only payment made from the Cowles fund was for scholarships as provided by the terms of the Trust.

No payments were made from the Savary Fund.

At the Town Meeting in 1933, every effort was being made to prevent, if possible, a large increase in the tax rate and it was thought advisable to leave the original amount of the Jones Fund intact, but to use the accumulated interest which had been earned by the Fund (amounting to \$4,794.70), to help pay part of the Town debt which matured in 1933. This was done by vote of the Town. As there are no conditions attached under the terms of the Jones will, the Town has the right to use either principal or interest for any purpose.

We feel that while the interest may be appropriated from time to time, that it is both appropriate and desirable, that the original gift be held until it can be used for some public purpose which will make it possible for the Town to give some lasting recognition of the generosity of the donor.

Respectfully submitted,

GEORGE A. SCHOFIELD,

CHARLES M. KELLY,

CHARLES E. GOODHUE,

Trust Fund Commissioners.

Ipswich, Mass., February 14, 1934.

## REPORT OF FIRE ENGINEERS

February 13, 1934.

To the Board of Selectmen,  
Ipswich, Massachusetts.

Gentlemen:

The following is the report of the Fire Engineers for the year ending December 31, 1933:

Bell alarms	33
Still alarms	59
Total alarms	92
Number of feet 2½-in. hose laid	11,050
Number of feet 1½-in. hose laid	500
Foamite used (gallons)	40
Water used from Booster tank (gallons)	2,450
Chemicals used (gallons)	112
Number of feet ladders used	1,174
Hours engine worked	12
Building inspections made	460
The fire loss this year was	\$65,072.50
The insurance paid was	\$52,416.00

## DEPARTMENT EQUIPMENT

Sanford Hook and Ladder Truck	1
White Triple Combination Pump No. 1	1
White Combination Hose and Chemical No. 2	1
G. M. C. Combination No. 3	1
40-gallon Chemical Tank at Little Neck	1
Fire Alarm Boxes	23
No. of feet ¾-in. chemical and Booster tank hose	600
No. of feet 2½-in. hose	4,400
No. of feet 1½-in. hose	400

The Engineers took advantage of the opportunity offered by the Massachusetts Dept. of Education, to send

two men to the Training School for Firemen that had been established this winter at Haverhill. The object was to teach uniform methods of handling fire fighting appliances to these men so that they could impart the information to the other firemen in the department in future drills.

The Burke Factory fire on June 19 of this year was the worst one we had to contend with, and through the efforts of our own department with the very valuable assistance that we received from out of town departments who were called here to help us, the fire was kept within a very reasonable limit.

At the time this report was prepared, the C. W. A. projects laying a new cement floor in the apparatus room, and painting the interior of the station is nearly completed, and makes a very much needed improvement. We expect some department expense in connection with these projects. We recommend the purchase of more 1½-in. hose.

With the \$1,000.00 appropriated at the last annual Town Meeting, the Engineers purchased 800 ft. of 2½-in. Goodyear Double Jacket Fire Hose, 200 ft. of 1½-in. Single Jacket Hose, 2 Nozzles, 1 Siamese Connection, and 34 Helmets for the firemen from the American La France Fire Equipment Co.

From the amount of \$920.00 appropriated at a special Town Meeting last July, for the purpose of buying 800 ft. of 2½-in. hose, and 1 35-ft. extension ladder to replace that which was lost at the Burke Factory fire, the contract was awarded to the Fabric Fire Hose Co. for the sum of \$800.00, leaving an unexpended balance of \$120.00.

We recommend that the Town purchase another pumping engine of a capacity of 750 gallons, as we believe that we are taking too many chances in depending on the one that we have now. It is 14 years old, the make is obsolete, parts are not kept in stock, and would have to be manufactured, resulting in delay in repairing, which would mean that we would have to depend on some other community in case a pump was needed. Our idea is to trade in our No. 2 Combination towards this new pump.

Respectfully submitted,

EDWARD H. SMITH,

GEORGE W. BROWN,

SAMUEL W. ATHERLEY,

Board of Engineers.

**REPORT OF THE BOARD OF HEALTH**

The Public Statutes require that all diseases dangerous to the public health shall be reported to the local Board of Health. Below is given a list of such diseases reported to this Board in 1933.

Chicken pox	2
Dog bite	1
German measles	1
Influenza	2
Measles	6
Mumps	1
Scarlet fever	32
Tetanus	1
Pulmonary tuberculosis	1
Typhoid fever	2
Whooping cough	2
Total	<hr/> 51

There were no deaths from any of these diseases. While scarlet fever constituted more than half the whole number of diseases reported, it was not epidemic.

The expense for the care of tuberculosis and contagious diseases had been large. The fact that there has been a number of cases in each classification in other cities and towns having an Ipswich settlement accounts for the expense being large, as the Ipswich Health Department has been obliged to reimburse the cities and towns where treatment and care were provided.

One of the greatest needs of the department is a welfare nurse who can follow up resident cases of tuberculosis and such other cases as may require follow-up care. We strongly urge that a sufficient appropriation be provided for that purpose.

General sanitary conditions of the town remain about the same as in past years. They will not be materially improved until a system of sewerage has been established. Two surveys have been made in the past years, but the whole question is still one that the future must solve. Meanwhile the Health Department is carrying on as best it can under the circumstances.

Respectfully submitted,

GEO. E. MacARTHUR, M.D.,

CHARLES T. AMES, M.D.,

JOSEPH SALTZBERG,

Board of Health.

Ipswich, February 15, 1934.

**SANITARY AGENT'S REPORT**

Ipswich, Mass., January 31, 1934.

Board of Health,  
Ipswich, Mass.

Gentlemen:

I submit herewith my report for the year ending December 31, 1933.

During the past year I have received a great many complaints in regard to garbage not being properly taken care of. I have investigated these complaints and as a result of said investigation I feel that the amount paid to the garbage collector is not sufficient to enable him to take care of garbage collections in the manner in which it should be done. I recommend to the Board of Health that they consider this when making arrangements for the collection of garbage this year.

There have been a number of complaints also about people who maintain piggeries. In many cases they are a source of annoyance to the people residing in the vicinity where they are kept. I recommend to the Board of Health that some definite action be taken to remedy this condition.

I have made periodical inspections of all public places, restaurants and schools, and wherever I have found unsanitary conditions have ordered them to be cleaned up.

The following is a list showing the number of permits and licenses issued by me during the past year:

Complaints received and investigated	135
Milk producers permits issued	35
Number of bakeries registered	8
Pasteurizing licenses issued	4
Cesspool and vault licenses issued	2
Tallow and soap grease licenses issued	3
Contagious cards posted	28

Respectfully submitted,

BRAINARD C. WALLACE,

Sanitary Agent.

### MILK INSPECTOR'S REPORT

To the Board of Health,

Gentlemen:

I submit the following report of the Milk Inspector for the year 1933:

Number of Milk Dealers licenses issued	51
Number of Ice Cream licenses issued	44
Number of Oleo licenses issued	5
Number of samples of milk tested for butter fats	118
Number of times pasteurizing plants inspected	58
Number of sediment tests	95
Number of bacteria tests	54

Respectfully submitted,

EBEN B. MOULTON,

Milk Inspector.

### REPORT OF INSPECTOR OF SLAUGHTERING

Number of hogs slaughtered and inspected	35
Number of calves slaughtered and inspected	51
Number of cows slaughtered and inspected	2

Respectfully submitted,

EBEN B. MOULTON,

Inspector of Slaughtering.

## REPORT OF UNEMPLOYMENT COMMITTEE

By vote of a Special Town Meeting held August 5, the following were appointed to serve as an Unemployment Committee:

Brainard C. Wallace, Chairman of Board of Selectmen; Walter F. Poole, Chairman of Board of Public Welfare; Charles Mallard, Manager of Water and Light Dept.; Francis E. Wood, Supt. of Streets; Francis C. Wade, Tree Warden, and additional members appointed were Clifford C. Boylan and Thomas H. Reedy. The Committee organized with Thomas H. Reedy as Chairman and Miss Shulayko as Secretary.

The Committee was voted the sum of \$10,500 to give employment to those they considered the most needy and deserving. This Committee took over the unemployment work list of the former Unemployment Committee, such list numbering about forty-one men. Later this number was reduced to around thirty and was carried on for over a period of several months at about this same number. As the summer waned and the work on the farms and summer estates slackened, there were stronger demands for work from those let out from employment. Beginning about Nov. 1, the Committee added about six additional applicants each week to relieve the constant increasing demands for work. Fortunately for our Committee and the Town the C.W.A. program was inaugurated and up to the time of this writing, the C.W.A. has relieved the unemployment situation. This Unemployment Committee presented to and had approved by the Civil Works Administration the following projects:

- Heartbreak Road Water Extension
- Highland Cemetery
- East Street Widening
- Waterproofing Shatswell School
- Cement Sidewalks
- Ipswich River Bulkhead
- Lafayette Street Drainage
- Legion Cemetery

The Committee also pledged the amount called for under Item No. 3 (the Town's donation share) for the Town Hall project.

On Dec. 14 at a Special Town Meeting, an additional sum of \$1,000 was appropriated for the use of this Committee to pledge as the Town's proportion against C.W.A. projects which might be submitted later, as well as to help defray the cost of administration and to pay such bills as might be outstanding. Of the amount, \$300.00 was pledged to the fire station project and the greater part of the balance was required to pay C.W.A. administration expenses.

The Committee has held meetings weekly since its formation and has adopted and completed the following projects as well as furnished men to the various Town departments, as shown in the appended table, ending December 31, 1933.

Signed: C. A. MALLARD,  
WALTER F. POOLE,  
FRANCIS E. WOOD,  
FRANCIS C. WADE,  
THOMAS H. REEDY,  
BRAINARD C. WALLACE,  
CLIFFORD C. BOYLAN.

## IPSWICH UNEMPLOYMENT COMMITTEE

---

## COMMISSIONERS

CHARLES A. MALLARD, Chairman	Term Expires 1935
J. E. COLE, JR.	Term Expires 1934
BENJAMIN H. DAVIS	Term Expires 1936

## TREASURER AND COLLECTOR

JOSEPH T. MORTON	No. 2 Office, Town Hall
------------------	-------------------------

## DEPARTMENT OFFICERS

Manager of Light & Water Dept.	Charles A. Mallard
Chief Operator Power Plant	Earl D. Hardy
Line Supt. Light Dept.	Gordon Player
Construction Supt., Water Dept.	Stephen Woodman

Office Hours of Light and Water Dept. 9 A. M: to  
5 P. M. except Saturdays, Saturday 9 A. M. to 12.00

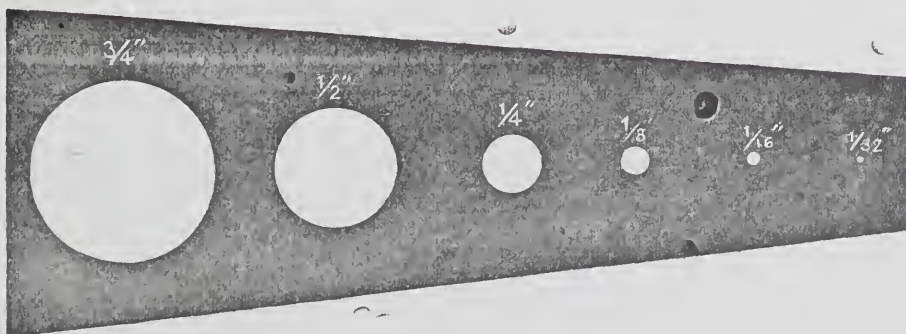

A meeting of the Commission is held each Friday  
night at 8 P. M. at the office Room No. 5

## CAUTION TO WATER TAKERS

Do not blame your meter

If you have a leaky fixture; have it repaired.		If not	
		gal. per day	per day
1-2	in stream consumes	10,800	\$3.40
1-4	in. stream consumes	8,640	2.60
1-8	in. stream consumes	3,240	1.10
1-16	in. stream consumes	1,080	.30
1-32	in stream consumes	360	.11

The above will show you what a small leak will amount to if allowed to remain unchecked, under our pressure of 70 pounds at Ipswich, Mass.

# **FORTIETH ANNUAL REPORT OF THE WATER AND LIGHT COMMISSIONERS FOR THE YEAR 1933**

To the Citizens of Ipswich :

We respectfully submit the annual report for the year 1933 as follows :

## **WATER DEPARTMENT**

### **Construction Department — Pipe Line**

Paid for materials and labor	\$5,222.22
------------------------------	------------

### **Service Pipe**

Paid for materials and labor	1,057.09
------------------------------	----------

## **MAINTENANCE DEPARTMENT**

### **Repairs Services**

Paid for materials and labor	2,223.06
------------------------------	----------

### **Repairs Pipe Line**

Paid for materials and labor	1,316.73
------------------------------	----------

### **Station and Grounds**

Paid for material and labor	3,830.46

## MANAGERS REPORT

### WATER DEPARTMENT

In connection with the rebuilding of the State Highway from High street Bridge to the Power Plant on High street the Department dug up the joints in the 12 inch water main for a distance of about a mile and recaulked approximately 500 joints before the road was constructed thus stopping chances of leaks which had been occurring each year. Most of this work was done with unemployment labor and paid for by the Department.

As the report shows the main water pipes were extended on the following streets, Broadway Extension, Burley Avenue, Newmarch street and Grant Court, and most of this labor was supplied by the Unemployment Committee and paid for by the Department.

In connection with the Federal C. W. A. the water main was extended from Argilla Road to a point 3200 feet on Heartbreak Road, the Department furnishing the materials at an approximate cost of \$2,000.00 and the labor at a cost of approximately \$2,400.00 was furnished by the C.W.A.

Twenty five men were employed in cutting brush and dead tree growth around the water storage basins for a period of five weeks by the C.W.A. I would recommend that if any further funds are available through the C.W. A. that the Department enlarge the water main from Glover's corner on East street to the Lombard Farm on East street a distance of approximately 4500 feet. The present main is now 4 inch for part of the distance and 6 inch the remainder. This will be inadequate in the near future to properly supply the section beyond Glover's corner including the Summer colonies at Great Neck and Little Neck. This pipe should be at least 8 inches in diameter.

#### Estimated expenditures for the year 1934

## SUPERINTENDENT'S REPORT

---

Following is the report of the year ending December 31, 1933.

### Main Pipes

The number of feet of mains laid to date and sizes are as follows:

14 inch	1,505
12 "	10,963
10 "	8,830
8 "	19,236
6 "	92,059
4 "	5,573
3 "	9,508
2 "	14,428
1 "	2,070

164,172 feet or 31 miles and 492 feet.

### Street Gates

Total now set	179
---------------	-----

### Hydrants

Total number now set:

Town	190
Private	16
Total	<hr/> 206

### Service Pipes

There has been added 12 services during the year making a total of 1487. A total of 16 of the old services were renewed during the past year. There has been added 167 feet on Town property and 1487 feet on Private property, making a total to Dec. 31, 1933 as follows:

Services	1321
Town Property	29,053 ft.
Private Property	35,915 ft.
Total	64,968 ft.

The services are cast iron, lead, galvanized iron and copper pipe in the sizes from  $\frac{3}{4}$  in. to 6 in.

### Synopsis of Pumping for Year Ending December 31, 1933

Total number of hours for year, 2044 hours 25 minutes.

Total number of gallons pumped for year 89,708,100.

Daily average pumped, 245,775 gallons.

Largest single days pumping, August 5, 715,800 gallons.

Largest months pumping, Aug.: 10,973,600 gallons.

### Extensions of the Water Mains for the Year

Broadway Extension — 965 feet 6 inch cast iron pipe.

Burley Avenue — 302 feet 6 inch cast iron pipe.

Newmarch street — 649 feet 4 inch cast iron pipe.

Grant Court — 256 feet 3 inch McWayne cast iron pipe.

## ELECTRIC DEPARTMENT

---

Following is a summary of the operations for the year:

Total number of meters in use in the Town proper	
December 31, 1933	1938
Total number of meters in Summer service	
Little Neck	133
Total number of meters in Summer service	
Great Neck	40
Total number of Kilowatts generated	1,957,084
Total number of Kilowatts purchased	40,200
	<hr/>
	1,997,284

### Kilowatts Sold:

Domestic Light	548,943
Domestic Power	114,370
Commercial Light	106,990
Commercial Power	445,783
Town Buildings	19,831
Water Dept. Pumping	95,380
Street Lighting	227,300
Station Light and Power	160,094

	<hr/>
	1,718,691
Losses 14%	277,943

<hr/>	<hr/>
1,997,284	1,997,284

During the past year there was an increase in the Kilowatt output of 155,426 over 1932. There was two causes for this increase, first the addition of the two shoe shops in the Ipswich Mills buildings and second the increased use of electricity by all consumers and the chief reason for this was the lower rates.

On May 1, 1933 the rates were reduced for all classes of consumers and for Domestic use the customer had the option of either the one or two meter method of metering. Effective December 1, 1933 the rates were again lowered for the Domestic consumer and this class was put on the single meter system with the sliding scale rate. With the discount of 10% for prompt payment the consumers of electricity in Ipswich enjoy rates lower than the average Plant in the State.

During the past year the work consisted mainly of rebuilding existing lines on High street, Topsfield road, and Essex road in conjunction with the New England Tel. & Tel. Co. One of the most serious problems in connection with the maintenance of the electric service is the trees. On nearly all of the lines the wires have to pass through or under tree limbs and during storms very often tree branches break off and either break the wires or cause short circuits and the service is interrupted until a repair can be made.

I would recommend :

That the sum of \$10,000 be appropriated for Street Lighting for the year 1934 in compliance with the State Law.

That any unexpended balance in the Department be appropriated for the use of the Dept.

## COMMISSIONERS REPORT

### Water Department

As shown by the list of expenditures and the report of the Manager much work was done the past year in extending the main pipe lines and other work that would give employment to those citizens of the Town who were out of work the past twelve months. This not only gave the much needed employment but it also helped to improve the water system as a whole. The Town of Ipswich has been affected by the extreme cold weather the past winter and the water services have suffered by being frozen more than for a great many years. During one period nearly 100 meters were frozen in different cellars causing loss of water service and expense not only to the individual but to the Water Department. It is the duty of each owner of property to protect not only his own water piping but the water meters and thereby save expense and inconvenience by being without water.

We recommend that the sum of \$23,911.25 as estimated by the report of the Manager be appropriated to be paid out of the revenues for the year 1934.

We recommend that any unexpended balances in the department be appropriated for the use of the department.

---

### Electric Department

Reduction in rates and the addition of various industries has caused the yearly output to grow about 10%. Due to this steady increase we find it necessary to make changes in engine equipment which would provide adequate capacity to care for this increased output. We therefore recommend exchanging the two small engines for two of a larger size.

CHARLES A. MALLARD,  
JAMES E. COLE,  
BENJAMIN H. DAVIS,

Water and Light Commissioners.

**AUDITOR'S STATEMENT**

This is to certify that I have examined the books of the Water and Electric Light Department and find them correct.

FREDERICK S. WITHAM,  
Auditor.

Ipswich, February 6, 1934.

## THE COMMITTEE'S REPORT.

---

To the Citizens of Ipswich:

Once more it is my privilege to report the activities of your Committee during the past year. We have operated as economically as possible. Most of the expenditures are fixed charges. The largest emergency project this year was the installation of toilets at the Payne School. We were compelled by the State Authorities to install flush toilets in place of the old-fashioned chemical ones which have been in this building for many years. The result is wonderfully clean and sanitary.

Because conditions in general are better, and because the teachers have not had a raise in salary for several years, the Committee is unanimously in favor of recommending that the five percent donation to the town cease. This is in line with President Roosevelt's policies and those of most towns in the Commonwealth.

During the past year the Committee met with the principals and teachers and enjoyed not only a very pleasant evening but a very instructive one. Most of the time was taken up with a discussion of marks and methods of marking, all of which was very enlightening. We hope to have more of these meetings, when other topics of interest will be discussed.

The proposition to build a new high school is to come before the Town Meeting this year. We have given this project many hours of thought and have interviewed many architects during the past few weeks, and we are unanimously in favor of proceeding with the building, providing it can be financed under the N. R. A. Under this plan, we would receive 30 percent of the costs as a direct grant, i. e. never to be repaid. The remainder would be loaned to the Town at a low rate of interest and an amortization period of 20 years. If the Town so voted, the amount of the grant could be applied toward the payment of principal and interest for the first few years, thereby not affecting the tax rate. This is allowed by the Government because it is hoped that, after this period, recovery from the depression will have taken place and towns and cities will be in better circumstances and more able to absorb the slight raise in the tax rate. However, this will be discussed at length in the meeting.

The Superintendent, Principals and Committee have worked very harmoniously during the past year. All seemed to sense the need of economy and have been guided in their demands accordingly.

ERNEST J. SMITH,

Chairman.

## SUPERINTENDENT'S REPORT

---

To the School Committee of Ipswich,

Gentlemen :

The thirty-second annual report coming from the office of the Superintendent of Schools is herewith submitted for your consideration :

NOTE. As a measure of Economy I have been requested to exclude from this number all reports of principals, supervisors, and subsidiary agencies, to review very briefly the work of the year, and to indicate, as briefly, those lines of policy which we hope may contribute to the further growth and usefulness of our schools.

We all realize the seriousness of the times through which we are passing. Calamity has been world-wide; disaster has overtaken its millions; few have escaped. Educational institutions have shared in the common lot. Thousands of schools have been closed wholly or in part; tens-of thousands of teachers are out of employment; and millions of the youth of our land are without adequate school privileges—a most serious and deplorable situation.

I confess to a feeling of deepest gratitude when I advise you that nothing of this sort has befallen our schools. Our organization remains intact: No department has been abridged; No subject has been eliminated; No teacher has been dropped; no salary cut, and no child nor **adult** has been denied the privileges of our schools.

This is no accident of fortune. It is due largely to straight thinking and careful planning, and grew out of a fine spirit of mutual effort and cooperation.

More than a year ago—to be exact, at the beginning of the fall term in September 1932, and in conference with your board—the teachers, supervisors, and janitors—in fact, everyone connected with the school department agreed to contribute five percent of his salary to the general funds of the town to be used for the public good. This policy has received the continuous support of your committee and has been in operation since that time.

As a sustaining influence in the work of our schools and a builder of morale in the personel, its value can hardly be overestimated. It gave evidence that the members of the school department, both as individuals and as a group, were fully alive to the situation, were sympathetic, and eagerly willing to do their part. It gave the schools a position of leadership in this community such as they never before attained and was followed by most of the other departments of the town.

The most of our teachers are well-seasoned men and women and experienced in their work. They are not swayed by tradition nor dominated too much by radicalism. They pursue a middle course to the lasting benefit of our schools and to the cause of education generally. Aside from the work of teaching, they contribute of their time, their ability, and their money to every good word and work, to causes within the community and to others

without and beyond. The stabilizing and wholesome influence they exert among our school children is a large factor in building character into our future citizens, but it is too often overlooked. Some of them are outstanding in their line and I hope they may be appraised and appreciated at their true worth.

Achievement tests given from time to time seem to establish the fact that our schools are doing fairly good work. Reports of those pupils who are attending other institutions outside of Ipswich are quite satisfactory. No complaints of conduct unbecoming Ipswich boys and girls, as groups, has ever been received. Quite the contrary is the fact. They have been highly complimentary.

Still our schools are not perfect. There seems to be a spirit of lawlessness in certain groups that calls for immediate attention and treatment. This must not be ignored nor passed by. Corrections must be made now; a deeper sense of personal responsibility must be aroused. There must be a more willing and cheerful obedience to constituted authority, a more wholesome respect for all laws, and an ingrained consciousness that the individual is not above any law, but that law is supreme, no matter what his preconceived notions may be. These must be taught and enforced, else our schools will fall short of their objective.

This, in part, is the work of the schools, but the schools cannot do this work alone. The church, the home, and the community have a share and a responsibility in this important enterprise.

The home must have a larger share in the work of character building if there is to be any appreciable advance along this front. The need is most urgent, and the home acting in closets cooperation and sympathy with the school must supply that need. Not only in the way

of discipline and better self-control, but in the effectual teaching of every moral precept. Assignments of work, somewhat permanent in character, should be given about caring for the home, and a perfect performance insisted upon in every instance. If you have taught your boy or your girl to accept cheerfully and as a matter of routine, the daily performance of some task or duty, and it is undertaken and carried through in the spirit of helpfulness and in the broader collective interests of the home and the family, you have done a wonderful, a beautiful, piece of work. When the home does this, the schools will have some foundation upon which to build and will cease to become a buffer arrangement between the home and the courts. Our youth will be less inclined to enter upon a career of crime before becoming of age.

One word in reference to the leisure that is so much talked about. Don't be deceived. To many minds this term is synonymous with laziness, and we have a surplus of that commodity, too. To be sure our inventions have saved us from much back-breaking grinding toil. For this we are grateful indeed, but let us not stop here. Let us turn this advantage to some good account. The cause of humanity cries aloud for reinforcements, for skilled laborers and pioneers in a field whose harvests never fail—the fruits of the spirit—whose returns and satisfactions outlive the generations of men. Never a time more necessary for social adjustment; never a time so big with promise of a new social order. Men and women of vision will hail the present as the golden opportunity to put the world upon a higher moral plane, and our schools must have the same objective. To encourage idleness, to eliminate the element of personal responsibility would be to betray a sacred trust. May we never do that. "Chaos and cosmos" are in the balance; which shall prevail?

One word, too, about this machine age. Is the machine always to supplant men? Are the days of Jugger-naut to have no end? When do we arrive? And where? Any machine that depletes to an unreasonable amount any of the natural resources of land or sea should be compelled to cease from such exploitation and to allow to operate only under the strictest and most rigid governmental supervision and control. Our oil fields and deep sea fisheries furnish examples. But what of men?

Civilization is at the crossroads. The world is disgusted at the constant recurrence of anti-social and criminal practices in places both high and low; it is deeply concerned about a situation where wealth can "guild every vice and condone every crime," where there is one law for the poor and none for the rich, and it is filled with resentment that our spurious prosperity grew out of the exploitation of one class of men by others to whom they had given their confidences. This is one side of the picture and indicates the magnitude of the task before us.

But there is another side to the story, and this side should be capitalized for all the "traffic will bear." **If we will but have it so**, great good is bound to come out of this depression. Never before were such powerful agencies so seriously engaged in a redemptive work. Never before were the prizes to be won of such tremendous importance the bringing in of a happier state of society and a fuller more abundant life for all. And this must be a permanent condidtion which all may build and all enjoy.

But what about the schools and the parts they are to play in the scheme of regeneration? The school of the future in the very nature of the work must differ very materially from the school of today. Reality will be the watchword and will supersede both theory and tradition. New classifications and curricula will be evolved and

each boy and girl will be given the opportunity and the training to meet honestly and squarely the complex situations of life, and as a worthy member of the community and a good citizen, to enjoy that life to the full extent of his individual capacity. But it must be attitudes first.

Here is what Prof. Dewey has to say on this point.—  
“The sciences taught in our schools and colleges must be more concerned about creating a certain mental attitude than they are about purveying a fixed body of information. Every subject should have for its intellectual end the cultivation of these attitudes of mind. The appropriation of science into the working constitution of personality is of far more importance than the acquisition of items of information.”

Another warning: “Every year thousands of our boys and girls leave the cloistered wall of educational make-believe to land squarely in a world terribly full of reality. As never before they need to know of these facts which will face them. They must be able to do those things which make for the technique of living in a dynamic and swiftly changing society; they must know how to think; they must have feelings, deep convictions, righteous indignations.”

We little realize the amount of progress that has been made in the humanities within the last one hundred years. The condition of labor, the care of the feeble-minded and the insane, the multitude of uplift agencies throughout the world give evidence to this advance. And now comes Dr. Butterfield in his fight for the complete democratizing of our schools. He divides this human material into three sections: those who choose a profession, 25%; those who are vocationally inclined, 25%; and those who must depend on jobs, 50%.

"The three are equal, and leaders of thought and opinion should continue to make declaration of this statement until it receives a general acceptance. JOBS ARE AS NECESSARY, AS HONORABLE, AS SATISFYING, AND FREQUENTLY AS REMUNERATIVE, AS EITHER PROFESSIONS OR TRADES."

Here is another: "A new day is coming when hard work, physical work, manual work will return to its rightful position in American life. For it **MUST**. The 'white collar' jobs are not to be had. No more than twenty or thirty per cent of the people are needed to fill them. The rest of us must work with our hands as well as with our brains. Perhaps not for always, perhaps not for long, but at least **FOR A TIME**. Consider how many great men of our day and of past days in American history started their careers in the corduroy or denim of a workman. Lincoln split rails and tilled the soil as a farm boy. Washington tramped the wilderness as a surveyor. Franklin, and Whitman the poet, toiled in the printing shop. Edison, who never disdained hard work with his hands, began as a telegrapher. And to go beyond, Theodore Roosevelt, though born to the purple, multiplied his strength by "roughing it" in the open.

The biblical "blessedness of work" shall never be old-fashioned. And in the near future many will be the rewards of those who toil with skilled hands. We cannot afford to be afraid of hard, physical work. No race, no nation, no government can exist without men who toil and are **WILLING** to toil. The foundations of prosperity were never built by men who liked soft seats and sought their livelihood by "easy money" methods of clever business and speculation. We, as a nation, must learn anew the dignity of work.

These may be rather disturbing to the socially elite and even to the intelligentsia; but they ring true to democracy, to the history of every civilization, and to the common sense of every age. But whatever our opinions, we are facing a situation that calls for action. The helplessness resulting from past educational procedure and practice must be relieved; the level of intelligence of our electorate must be raised; its moral fiber must be strengthened; and an uncompromising attitude against wrong doing must be developed and given a higher place in our mind and thought. Our problems are social and moral problems.

The New Era school will raise the general intelligence of 50 per cent of our elementary school children to the level of high school graduates; it will conserve the best of tradition and lead to the scientific analysis and treatment of our present day ills; it will endeavor to so far strengthen our sense of right and wrong that vice and crime will be stripped of their brazen claim to respectability; it will endeavor to assist the coming generation to a wiser appraisal of men and measures, where true merit and true worth will be the deciding factors; it will teach that real progress is built upon sacrifice, not selfishness; and lastly, that "that is is the happiest society which partakes in the largest degree of the mild and beneficent principles of Christianity."

I have no space for the details of the lay-out of the New Era school. In program and procedure it will differ materially from the school of today. It presents wonderful opportunities for social adjustment and a larger, freer, happier life. It presents a wonderful opportunity for those interested in humanity's cause.

Are you a knocker or a booster?

Respectfully submitted,

JOSEPH I. HORTON,

Superintendent of Schools.

---

### COLLEGE COURSE

Beatrice Gilbert Austin	*Anne Patch
James William Austin	Peter Retales
Mary Rose Clemeno	Theodore Albert Rice
*Helen Ida Kozeneska	Ernest Joseph Smith, Jr.
*Samuel Ervin Langmaid	Lennart Swenson
*Lazarus Nicholas Lazaropoulos	Sylvia Kirkland Todd
Margaret Christine McLeod	

### GENERAL COURSE

Edgar Frederick Adams	Warren Everett Grant, Jr.
Murray Henry Adams	Dorothy Mary Greene
Albert Ralph Anzuoni, Jr.	John Edward Hayes
Anne Barbara Arthur	Mary Johnosn
*John Stanley Bialek	Catherine Lucey
George Campbell Blodgette	Aldene Marcorelle
George Stavros Bournazos	Earle Stuart McCormick
Clifford Bradstreet	*Eleanor Mae Mitchell
Anthony Stanley Budzianowski	Beatrice Maude Mosher
Dorothea Evelyn Clapp	Mildred Alberta Rogers
Edward Alexander Crellin	Christine Scourletis
Theodore Louis Cuik	Harold Lincoln Sholes
Mabel Almina Currier	Kathleen Cora Singer
Anthony Walter Cynkus	Ilene Amelia Smith
Thelma Isabel Davis	George Benedict Torpey
✓ Randolph William Emerson	Alice Gertrude Wegzyn
Steven Vincent Goverek	

COMMERCIAL COURSE

Jane Bokron	Bessie Lampropoulos
Dorothea Anna Chapman	Sigrid Erica Lind
Phyllis Jeane Chisholm	Mary Ann Los
* Mary Melvina Fido	* Dorothy Gertrude Miller
Helen Galanis	Mary Louise Minichello (??)
Margaret Marie Hamm	Wilda Maria Parsons
Irene Karchonas	Lillian Thelma Player
Steve Joseph Kozazcki	* Rose Ella Adele Poirier
Sophie Ann Klosowski	Emily Pauline Savage
Stashia Kuonis	Mary Elsie Williams
Alice Ethelyn Witham	

\* Pupils who have maintained a rank of 85 per cent or above for four years.

CLASS OFFICERS

President .....	Ervin Langmaid
Vice President .....	John Bialek
Secretary .....	Margaret Hamm
Treasurer .....	Sylvia Todd

## NO SCHOOL SIGNALS OF THE IPSWICH SCHOOLS

---

4 BLASTS AT 7.30—No Morning Session in ANY SCHOOL.

4 BLASTS AT 8.00—No Morning Session in the FIRST SIX GRADES.

4 BLASTS AT 11.30—No Afternoon Session in the FIRST SIX GRADES.

In the absence of any signal at 11.30, the afternoon session will be held at usual. Teachers and pupils must be present at such sessions as on other days.

All should bear in mind that the 7.30 and 8.00 o'clock signals do NOT EXCUSE FOR THE ENTIRE DAY.

In addition to the warning given by the whistle, the street lights will be turned on for five minutes after the signal is given in each case.

In all cases **parents are expected to exercise their judgment** as to permitting their children to attend school during stormy weather.

On stormy days when the FIRST SIX GRADES are excused for the day by the 8 and 11.30 o'clock signals, the Junior and Senior High Schools will each have a single session closing at 1.30 P. M. The 11.30 o'clock signal will give parents ample warning for postponing the dinner hour.

# GRADUATION

## JUNIOR HIGH SCHOOL

June 20, 1933

---

### Program

Invocation	Rev. James G. Cairns
Selection	Junior High Orchestra
Recitation---The Brook	Mabel Chambers
Essay---The Development of Fire Protection	Joseph Atherley
Singing---Daybreak	Chorus
Recitation---The Sign of the Golden Shoe	James Skourletis
Duet---Juanita	Constance Tozer---Elizabeth Witham
Essay---History of Stamps	Frederick Benedix
Singing---A Dream Boat Passes By	Chorus
Recitation---The Fairies Have Never a Penny	Ruth Dolan
Essay---Scouting	Margaret Hubbard
Trumpet Solo---Columbia Polka	John Denningham
Recitation---Margery Maketh the Tea	Mary Scibisz

Essay	A Country Auction
	Priscilla Bailey
Selection	
	Junior High Orchestra
Recitation	My Sister's Best Fellow
	Andrew Alexopoulos
Essay	Electricity
	Frank Canney
Duet	Love's Old Sweet Song
	Edward Dalitka
